

Your INL Update — Week of Sept. 13, 2010

This is Misty Benjamin with your INL Update.

This week, Energy Secretary Dr. Steven Chu visits Idaho National Laboratory facilities and speaks with staff. During his visit, he'll receive briefings about INL research in the areas of nuclear energy, National and Homeland Security, and energy and environment. This is Secretary Chu's first visit to INL.

The Council of State Governments – WEST met in Sun Valley this weekend. INL supported the gathering that includes conversations about energy, natural resources, education and more. The forum provides an opportunity for collaboration on important regional issues.

One researcher at INL spends his days preparing for space missions. He produces space batteries for NASA missions to Mars and Pluto. On his off time, he's searching the ground for interesting pieces of knotted wood for original projects. You can learn more about this creative researcher in the features section of INL.gov.

This was your INL Update. You'll find more information at INL.gov, including community announcements and the latest INL news.
